BEN LASKA IS FOUND GUILTY

The News Review

By BRUCE CATTON

THE case of Alabama Pitts is worth more than casual attention. Alabama Pitts has just got out of Sing Sing prison, in New York, after serving some five years for a holdup. In prison he demonstrated that he is an able athlete; so, on his release, the Albany baseball team in the International League handed him a \$200-a-month contract.

U. S. Governors Give President Confidence Vote

Pledge Support of Recovery Efforts at Meet in Biloxi

OFFICERS ELECTED

Program Providing Wage and Hour Scales Is Approved

BILOXI, Miss.—(AP)—Governors of the United States in concluding their annual conference here re-elected Gov. Paul V. McNutt of Indiana, chairman, and gave President Roosevelt a vote of confidence in his recovery efforts.

The conference also approved a nationwide program providing minimum wages of pay and maximum hours of employment in the interest of the preservation of amicable relations between capital and labor.

Direct action on the program was debated heatedly, was left to the Executive Committee. The new Executive Committee consists of Govs. Harry W. Nice of Maryland, Dave S. Reid of Florida, Henry Horner of Kansas, Alf M. Landon of Kansas and McNutt.

Features of the NRA were endorsed by unanimous vote after the conference had voted down, 13 to 3, a resolution asking that supervision of Federal Relief Administration funds be placed in the hands of states.

"Whereas, business has been greatly benefited and working conditions vastly improved in the last two years under the wise leadership of President Franklin Delano Roosevelt, and," declared the vote of confidence resolution.

"Whereas it is essential to our national economic security that a nationwide program providing minimum wages of pay and maximum hours of employment be maintained in the interest of the preservation of amicable relations between capital and labor, and the enhancement of the purchasing power of the people of this country to the end that unemployment be reduced, therefore,

"Be it resolved: That it is the sentiment of these governors' conference that these ideas should be encouraged and furthered throughout the nation."

Farmer Has Potato Vine Bearing Tomatoes

Harry Robinson of DeAnn, brought to Hope Saturday an Irish potato vine bearing four tomatoes.

The vine had several small Triumph potatoes at the roots with four green tomatoes clinging to the top of the vine.

Mr. Robinson was unable to give an account of the cross between potatoes and tomatoes.

Mrs. W. A. Walker, Hope Route Two, brought to The Star office Saturday an exceptionally large fig. It was the size of an average orange.

FLAPPER FANNY SAYS:

Since everyone admits that the one great need of the ex-convict is a decent job that will enable him to go straight, this would seem to be an excellent move all around. But now a man named W. G. Bramham, president of the National Association of Professional Leagues, has ruled that Pitts can't play professional baseball because it would lower the tone of the sport.

What a ruling! The Albany fans want Pitts; the players want him; he wants the job, needs it pathetically. Is his chance to be denied him because some petty bureaucrat has baseball confused with some old maid's sewing circle?

X X X

A dispatch from Rome announces that a number of armed Ethiopians raided Italian territory, slew some 30 native Italian troops and made off with several thousand head of cattle.

Without seeking to deny the authenticity of this report, it can be predicted that a good many more articles similar to this will appear during the next few months.

According to all signs, the Italian government is getting ready to swoop down on Abyssinia with horse, foot and guns. A venture of that kind takes much preparation—and part of the preparation is a flood of propaganda designed to make the prospective victim look like a cattle-thief, murderer and uncivilized wild man.

So you might as well get ready to read a whole string of Roman dispatches telling of disorders along the Abyssinian frontier. A war, like a heavyweight championship prize fight, must be preceded by what the sport writers call a "build-up."

X X X

One need take no more than a casual glance at the most recent figures on government relief expenditures to realize that, whatever the answer to the various recovery problems may be, the present rate of spending cannot go on indefinitely.

At the present time, one out of every five persons in the country is dependent on the government for support. In round numbers, between 25,000,000 and 30,000,000 persons are drawing money for their food, clothing and shelter from the U. S. treasury.

This includes government employees as well as people on the relief rolls, of course; but the total is a staggering one, just the same. The government is spending fully \$3,000,000,000 a year on direct payments to employees and recipients of relief. We may not know how to end this situation, but it is perfectly obvious that it cannot go on forever.

Schools Must Not Exceed Revenues

Attorney General's Office Holds Directors Liable Personally

LITTLE ROCK.—School warrants issued in excess of the current year's revenue of any district are invalid and directors authorizing issuance of such warrants should be held liable personally for maintenance indebtedness incurred in excess of the district's revenue, Assistant Attorney General Gussie Haynie advised G. C. Floyd of the State Department of Education Friday.

Mr. Floyd requested the opinion for F. L. Donathan, Logan county treasurer.

"We are of the opinion that if the schools cannot be operated without incurring indebtedness, that it is the duty of the school directors to close the school and cease paying the teachers for the remainder of the fiscal year," that opinion said.

The opinion said the county treasurer would not be liable for the payment of such warrants and that it would be his duty to register legally drawn warrants and pay them in the order of registration as long as he had money in his possession to the credit of the district.

8 Are Known Dead in Texas Floods

Scores Missing as Western Streams Threaten on New Rise

By Associated Press

Floods surged down western streams again Saturday, threatening further life and loss of property.

At least eight were known dead in southern Texas where the Colorado, Alamo, Rio Grande, Frio, Guadalupe and Nueces rivers were out of their banks.

Scores of persons were missing.

Nation-Wide Hunt for Mahan Shifted to Texas Saturday

Suspect in Weyerhaeuser Abduction Reported Seen

STORY OF GUN FIGHT

Fugitive Said to Have Escaped Near Kirbyville, Texas

KIRBYVILLE, Texas.—(AP)—A man officers said they had been tipped off was William Mahan, sought in the \$200,000 George Weyerhaeuser kidnapping, escaped after a gun fight with officers near a CCC camp near here late Friday night.

H. F. Malone, Jasper county constable, said that Kirbyville officers had received a tip Friday that Mahan was in this vicinity.

Malone corrected first reports after returning from an all-night search, that the man was Alvin Karpis, public enemy number one.

One Is Dead, Many Are Hurt in Riots

Several Are Gassed, Property Damage Is Heavy in Strikes

By Associated Press

One person was shot to death, dozens were injured, many were gassed and heavy property damage was done Saturday as rioting involving sympathizers with striking street car men continued its third day at Omaha.

At Freeport, Ill., National guardsmen wounded six persons after a day of strike between pickets at a manufacturing plant.

At Toledo, Ohio, the Central Labor union threatened a general walkout of all union workers as a sympathy move for the striking employees of the Toledo Edison company.

At Milwaukee a milk truck was bombed in a dairy strike.

The projected bituminous coal strike was called off Saturday. A joint conference of Union Mine workers and Appalachian soft coal operators ratified unanimously President Roosevelt's proposal that wages, hours, and working conditions would be continued through June 30.

Immediately John Lewis, Mine Union president, called off the strike which was set for Sunday at midnight.

Alabama Votes Ban on Heart Balm Suits

MONTGOMERY, Ala.—(AP)—The Alabama Senate, 18 to 11, Friday passed the Russell bill to outlaw civil suits for breach of promise, seduction and alienation of affections. The bill now goes to the House.

Passed also by the Senate was the Wellborn "guest rider" bill to prohibit suits by guests against drivers in automobile wrecks where no "willful or wanton" negligence is shown.

The most elaborate gold vaults in the world are those of the Bank of France. They are protected by 50 feet of solid rock and a subterranean street.

Helen Hentschel, the country's first girl outboard motor boat champion, has become a "business-woman" outboarder, giving expert advice on motors, boats and equipment to the customers of a New York firm.

High Cost of Going Broke Attacked By Federal Judge

Big Bankruptcy and Receivership Fees Are Target of Tennessee Jurist—Believes Creditors and Debtors Need Protection

By NEA Service

MEMPHIS, Tenn.—Business men the nation over have been fretting under a growing receivership racket operating with the virtual protection of the courts.

But West Tennessee's new federal judge, John D. Martin, has struck at lucrative fees in bankruptcies and receiverships in Memphis and announced his determination to wipe out the evil. The benefits of his new deal in insolvency cases already are being felt.

A few weeks ago when Judge Martin took the bench and began to talk about "moderate fees" for referees, trustees and attorneys in bankruptcies, old-timers leaned back and remarked that it was "a pretty speech."

Saved

Saved by the first operation of its kind ever performed, Joseph Krehmer, 48, Chardon, O., miner-farmer, here is shown hale and hearty as he left a Cleveland, O., hospital, after a five-month fight to prevent agonizing death by angina pectoris. Muscles were switched from his chest to his heart, giving it a new supply of blood, by the skill of Surgeon Claude S. Beck.

Offers Prediction of 13-Cent Cotton

Senator Bankhead Lists Factors That Will Cause Advance

WASHINGTON.—(AP)—Cotton at 14 cents a pound this year was forecast by Senator Bankhead (Democrat, Alabama).

He said that the world crop promised to be sufficiently short to cause the drain on American pool cotton. He predicted farmers owning the pool "options" can easily be organized under existing circumstances to hold their cotton for 13 cents a pound.

Bankhead said that the cotton on which farmers have obtained 12-cent loans under the government price peg will not move until the 13-cent level is reached. He linked possibilities of a short world crop with a "cornered" carryover and low stocks in American mills in predicting higher prices.

He said that the American crop generally is getting off to a bad start, and except in a few sections the crop is from two to four weeks late. It is very susceptible to insect damage. Usually favorable weather conditions will be required to produce a normal yield now.

Bankhead said there were no indications that foreign grown cotton this year will exceed 13,500,000 bales, and with the world consuming at the rate of 20,000,000 bales a year, he said 10,500,000 bales of American cotton still will be required.

"With the world cotton trade needing all of this year's American crop and with practically all the carryover cornered at approximately 13 cents, and with the administration's assurance that if and when a 12-cent loan is needed it will be forthcoming (on the new crop), the cotton trade should begin to consider a price that will bring out the loan cotton. Nothing less than 13 cents will do it."

Convict Released to Aid Ill Sister

JONESBORO, Ark.—(AP)—Ernest Monroe Wilkerson rushed here from Tucker prison farm under executive clemency Friday ready to give his blood for a sister in her fight for life.

Attending physicians Friday night reported Viola Wilkerson's condition improved and said it will be two or three days before they can determine if a transfusion will be necessary.

Acting Governor W. F. Norrell (unhatched Wilkerson for five days to allow him to go to the bedside of his sister. A physician attending Viola Wilkerson and Sheriff Howard Curdin of Crittenden county requested the release.

Norrell, acting as chief executive during Governor Futrell's absence, told the Biloxi governor's conference, was told that Wilkerson had passed tests showing his blood to be the proper type for the transfusion.

Wilkerson is serving a five year sentence for grand larceny from Crittenden county. He has been an inmate of the state prison farm since September 30, 1933.

Sweeping Out the Cash

Thousands of Philadelphians who were accustomed to being paid in crinkly paper bills got the surprise of their lives when they hefted pay envelopes filled with silver dollars, some of the latter ones weighing ten pounds. Ann Frank is shown sweeping coins out of a truck in which they were hauled to paymasters' offices. The occasion was "Flow of Silver Day," purpose of which was to induce quick spending.

Clubs Addressed by Railroad Man

Rotary and Kiwanis Hear Collette as "Railroad Week" Ends

In keeping with the spirit of the occasion "Railroad Week" E. L. Collette of the Frisco railroad, addressed the Rotarians and Kiwanians at their respective banquets this week.

After tracing the history of transportation from man's back to the present system of transportation, Mr. Collette described some of the latest attractive changes the railroads have made and are making to regain the business they have lost to the now less attractive means.

Mention having been made of the fast stream-lined passenger trains made entirely of stainless steel, air conditioned coaches which are more comfortable than ones own home, and the latest Frisco innovation "The Snack Car" in which food is prepared and served in the presence of the customers as is being done in many restaurants.

These improvements have done much to recover the passenger business and the railroads feel justified in hoping for still greater improvement, when the public realizes the superior advantages of traveling by rail such as speed, comfort, safety and now, economy.

As interesting as these facts were, however, they were not to be compared with the obvious benefits flowing from that great industry in way of employment, immense uses of commodities of every conceivable kind, and the large amount of taxes paid to municipalities, counties and states.

A small idea of the taxes paid by the Frisco (though only data available) may be gained by the following:

Total for State 322,745.67
City taxes (Hope) 103.54
Special (Hope) 80.75
County of Hempstead 80.98
Road 481.18
State 2,395.44
Sewer 6,840.00
Total for County 322,745.67

These figures become more impressive when the fact is considered that the Frisco operates in only a small part of the state of Arkansas. The other railroads have much more track in the state and their taxes will be greater in proportion.

Lois Jones Wins Voice Test Here

Will Be Given Free Trip to Dallas—to Compete in Further Tests

Miss Lois Jones, popular Hope girl, won the free movie voice and screen contest at Hope city hall Friday night.

The contest was given jointly with a stage show sponsored by the Young Business Men's association of Hope.

Miss Jones will go to Dallas within the next few days to compete in a regional contest to determine possibilities of a trip to Hollywood where another voice and screen test will be made.

Her expenses to Dallas will be paid by the management of the stage show. After singing "Star Dust," "Stormy Weather," and "Lullaby of Broadway" Miss Jones was unanimously awarded the winner Friday night.

NRA Bill Quickly Signed by F. D. R.

President Approves Measure Few Minutes After House Action

WASHINGTON.—(AP)—The "stop-gap" NRA resolution was rushed through the house Friday by an 11-to-1 majority, and a few minutes later was signed by President Roosevelt.

The legislation extends a countless and bob-tailed remnant of the recovery unit until April 1, 1936.

Vice President Garner and Speaker Byrnes signed the resolution almost immediately after passage by the house. Mr. Roosevelt apparently was waiting with his pen raised, and affixed his signature without comment as soon as it reached the White House.

In the house there was some protest from Republicans about "tag" rule—but neither the minority members nor the Democrats used all their allotted 30 minutes of debate before the 336-to-51 roll call adopted the resolution.

Bible School Will Open Here Monday

Daily Sessions Will Be Held at First Methodist Church

A daily vacation Bible school will begin next Monday at First Methodist church. The school will be in session two weeks, beginning the 17th and closing Friday the 28th. Much interest has already been manifested, indicating a large enrollment. The schedule is as follows:

First Lawyer to Be Convicted for Aiding Kidnapers

Accused of Receiving \$10,000 in "Hot Ransom Money"

HAD DEFENDED BATES

Sentence Is Left to the Discretion of Federal Judge

OKLAHOMA CITY.—(AP)—Ben B. Laska, Denver lawyer, was convicted Saturday on federal charges for accepting ransom money as fees for defending Albert Bates, convicted kidnaper of Charles F. Urschel, Oklahoma City oil millionaire.

Laska is the first defender of kidnapers to be prosecuted by the federal government. He was convicted on the contention that he had a guilty knowledge in disposal of the \$200,000 paid for Urschel's release.

Laska's sentence was left to the discretion of Federal Judge Edgar S. Vaughn.

Scaled Verdict

OKLAHOMA CITY.—(AP)—A verdict was reached in the case of Ben B. Laska, Denver lawyer charged with conspiracy in the \$200,000 Charles F. Urschel kidnapping, shortly after 6 Friday night, but it will not be opened until Saturday.

The verdict was sealed and the jurors will return to present their decision to Judge Edgar S. Vaughn. The case went to the jury at 4:55 p. m.

The case was the first against a kidnaper's lawyer ever to go to a federal jury.

Directed Verdict for Mothers

His youthful co-defendant, James C. Mathers, Oklahoma lawyer, was freed by Judge Vaughn earlier in the day on a directed verdict of acquittal. The judge told the jurors that Laska was charged with the same offense as his convicted client, Albert Bates, for whose defense Laska was charged with receiving \$10,000 in "hot ransom money."

"You are instructed that the purpose of the act," the judge said, "was to prevent kidnapping and to provide punishment for those guilty of a violation of the act."

"The underlying motive for kidnapping is not revenge or to wantonly bring sorrow and distress to a victim's home, but it is to secure a cash ransom for the release of the captive."

Edward Feldman, member of the kidnapping gang and star witness for the government, testified that Laska not only accepted part of the ransom money but directed its disposal.

Boh Feldman and his mother, Mrs. Clara Feldman, pleaded guilty to conspiracy in the Urschel abduction and are awaiting sentence.

Court Is Asked to Forfeit Bond

Bailey Seeks Hudspeth Money as Hearing Dropped

LITTLE ROCK.—(AP)—Attorney General Carl E. Bailey asked the supreme court Friday to forfeit a \$6000 cash bond of A. T. Hudspeth, former president of a chain of Arkansas banks under conviction for accepting deposits in an insolvent bank.

Hudspeth was convicted in Boone county circuit court at Harrison early in 1933 and sentenced to one year, his appeal to the state supreme court later being denied and an appeal in the United States supreme court has been abandoned the motion said.

The petition, prepared by Assistant Attorney General Guy E. Williams, said that Hudspeth had appealed his conviction to the state supreme court on February 13, 1933, depositing the \$6000 bond. The court affirmed his conviction on December 4, 1933 and the judgment became final February 5, 1934.

At that time Chief Justice C. E. Johnson issued an order to stay of execution of three months to afford Hudspeth time to apply to the U. S. supreme court for a writ of certiorari, conditioning that Hudspeth should answer for all damages and costs the state might sustain through the delay if he did not make the application or failed to make his plea good in the higher court.

Williams' motion said the former banker had filed his petition with the U. S. supreme court but had failed to obtain an order granting the application and "has abandoned all efforts in this direction."

The petition said Hudspeth had not surrendered himself to the supreme court to begin serving his term and asked that Supreme Court Clerk W. P. Sadler be authorized to deliver the amount of the bond to State Treasurer Earl Page.

St. Petersburg Has 365th Day of Sunshine

ST. PETERSBURG, Fla.—(AP)—Three hundred and sixty-five days of sunshine was St. Petersburg's record Friday. Business paused and the city celebrated, marching with bands playing to the office of the St. Petersburg Independent, evening newspaper, which is distributed free on days the sun fails to shine, before press time.

L. C. Brown, general manager of the paper, was congratulated on success of the "sunshine offer."

The last free issue of the paper was June 14, 1934, after a rain that obscured the sun all day.

Bell's Island, now the site of the Statue of Liberty, was once the scene of executions for federal offenses. Hundreds of excursionists made holiday trips to the hangings.

Search for Kaul Ended, Body Is Found in River

Boy Mysteriously Vanished From Playground June Sixth

BODY IS IDENTIFIED

Officers Had Clung to the Theory Youth Seized by Woman

NEW YORK.—(AP)—The body of little John Kaul, 5, was recovered from the East river Saturday.

Finding of the body ended a frantic search that began June 6, when the boy disappeared from a playground in fashionable Sutton place on Manhattan's east side.

The body was identified by the boy's father, John Kaul. He collapsed after making the identification.

Recovery of the body ended a police search that progressed on the mother's theory that the youth had fallen into the river and a theory by officers that the boy had been seized by a woman with frustrated maternal instinct.

Clubs Addressed by Railroad Man

YOUR HEALTH

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

You Can Catch Trench Mouth Anywhere.

After the World War, a great many soldiers returned to this country infected with a condition called trench mouth.

Despite its name, this disease is not confined to men in trenches. It has, in fact, become so widespread that people nowadays catch it from all sources. The germ that brings on trench mouth is a spiral organism that can be seen under the microscope. When it attacks the mouth, it produces ulcers on the tonsils.

The germ also creeps under the gums, causing bleeding and bad breath; and creating a grayish membrane with little blisters.

If you neglect the condition, it gradually gets worse and results in a swelling of the glands and constant bleeding.

People can contract trench mouth by kissing, or by using the same spoons, forks or unwashed drinking glasses. Fingers, too, may carry the germs to the mouth.

Sometimes the disease is even caught in the offices of careless dentists; but, usually, direct contact or contaminated eating utensils are responsible.

To avoid trench mouth, it is necessary that you take constant and watchful care of your mouth and, particularly, if your teeth and gums. Remember the first signs of infection: persistent bleeding of the gums, and unpleasant odor.

Many of the milder cases can be treated by good dentistry, the use of simple antiseptic solutions, or even a regular cleaning of the teeth. More severe cases may demand special dental preparations, or even treatment of the body generally by injections into the blood.

There is good evidence that cases of trench mouth are increasing in the United States, and there is only one way to combat the disease. Watch for the symptoms and, if they appear, see your dentist or doctor at once, so that he can advise the necessary treatment. Every individual case should be cured as soon as possible.

A BOOK A DAY

Writes Grim Tales of Forgotten Men—Erskine Caldwell Produces Another Bitter Book

That searching, grimly humorous gaze which Erskine Caldwell bends on the forgotten men of the southern cotton belt is productive of some amazing and unforgettable stories; and a good cross-section slice of Mr. Caldwell's talents is available in his latest book, "Knee to the Rising Sun."

In this book, a collection of short stories, Mr. Caldwell tells more stories of the people who have been ground down by poverty and neglect into appalling, almost sub-human forms—the share-croppers, the swampland poor whites, the shanty-town denizens of the cities, the colored people who find every man's hand raised against them.

The stories are not exactly what you could call pleasant summer reading. Mr. Caldwell is too much in earnest, too bitter, for that. But if you don't mind looking at life with the blinkers off, they are very much worth your while.

Some of them are mere sketches—like the tale of the country swain who goes to propose to his girl and gets so embarrassed talking to her family that he leaves without even speaking to her. Others—the pleasant little yarn of the old share-cropper who is eaten alive by hogs—are as grotesquely horrible as anything Poe ever wrote.

All of them have a remarkable strength and power, and help to confirm the widespread suspicion that

The hippopotamus does not sweat blood. This belief arose from the fact that the animal excretes a carmine-colored pigment from its skin.

Mount Athos is a monastic republic in Greece. It is 40 miles long and 5 miles wide, and no woman or animal of female sex has been permitted to enter its boundaries within the last 900 years.

Mr. Caldwell is one of our most gifted and "important" authors. Published by Viking, this book sells for \$2.50.

YOUR CHILDREN

By Olive Roberts Barton

Use Caution in Adding Fruit to the Baby's Diet.

About this time of year mothers are wondering what fruits may be given young children safely. Should they be raw or cooked; canned or prepared at home? How much is plenty? When are fruits dangerous? And so on.

Little babies under six months had better stick to orange juice—or tomato juice if that agrees with them better. The time for stepping out a bit regarding fruit diet is usually at about six months. Then it is the good old apple and the precious prune that come along to brighten life.

Both must be cooked thoroughly and with very little sugar. They should be strained, and the first dose is one teaspoonful or less. Once a day is enough. After a few days increase the amount slightly if the fruit agrees with them.

Give It at Noon Feeding. We are, of course, talking about a well child. No fooling with new foods when he is ill. If one or the other and either apple pulp or prune pulp physhe the baby too much, stop it. Or reduce the amount. If he cannot take care of it at all, wait until he is older. Around his near-noon feeding is the best time to give it. If all goes well he can be having as much as two or three tablespoonfuls of the fruit by the time he is seven or eight months old.

This diet is not usually varied much, except under specific order, until the baby is a year old. Then he gets into second grade. A baby specialist tells me that the recommended cooked apples, peaches, pears and even sweet cherries or plums.

Sour Fruits Best Left Alone. Any fruit that is sour and requires too much sugar is bad. Rhubarb, for instance, he seldom suggests on that account. He says that dried fruit is good, too. Skins are best removed; then crush the fruit finely or strain it. Two or three tablespoonfuls may be given with the supper at 5 o'clock. He also varies this with a bit of fresh banana, mashed of course. A child this age will eat things whole, and that is never good for him.

Raw fruit is allowed most babies at a year and a half if they are well and other matters are right, such as weather, and other diet changes are not impending. As usual it must be started in very small amounts and must be crushed. It can be given alternately with the cooked fruit, if desired. Begin with a tablespoonful of the raw fruit and gradually increase. Eliminate skins and seeds. To the list of fruits used formerly, the specialist now adds grapes, which may be seeded to stimulate the bowels too much give up all raw fruit until later.

Be Sure Fruit Is Ripe. At three years cooked or raw fruit may be given up to five tablespoonfuls. Pineapple juice is all right, but the pulp is too fibrous. You may add to the fruit diet now, grapefruit-juice and apricots. But all and any fruit must be ripe and sweet. The things to avoid for the young child of this age are berries and melons, although red raspberries may be cooked and strained. Never use spice in cooked fruit.

Canned fruit is all right naturally, but it contains a good bit of sugar for the very young child, unless specially prepared for babies.

Older children can take care of a great variety of fruit. But in hot weather watch that they don't stuff on it when they are too hot and perhaps it is too green. Remember what happened to Johnny Jones and his sister Sue.

Light single flower odor and mixed bouquet scents that smell like an outdoor garden are the most suitable perfumes for summer days and evenings. This is the time to put away

the heavy perfumes that were nice last winter and use more subtle varieties.

Among the single flower types for daytime, violet, lilac, wild rose and sweet pea are popular. Get toilet water or scented cologne to match, of course, and, if you like, bathpowder, too. If you pick a mixed bouquet type, make sure that it isn't heavy, as were the Oriental perfumes you loved last December.

For outdoor girls, there are perfumes that smell like wild ferns after a summer shower or a maple grove early in the morning when the leaves are still are drenched with dew.

Remember that perfumes never should be put on clothing. If you rub it on your skin, the odor becomes more subtle and at the same time richer. If on coats, hats or dresses, it gets stale and more uninteresting by the minute. Behind each ear, in the hollow of your throat and on wrists are the best spots, of course.

If you use an atomizer—and a good idea this is—in one that has an airtight top. Otherwise your perfume will evaporate rapidly and whatever is left will smell like alcohol. If you can't find or afford a really good atomizer, better pour the liquid out of its own bottle into one with a glass stopper, attached to a dropper. If you put perfume on with your fingers, you waste a good deal.

Light single flower odor and mixed bouquet scents that smell like an outdoor garden are the most suitable perfumes for summer days and evenings. This is the time to put away

The Day Is Done

The day is done, and the darkness falls from the wings of night, As as feather is wafted downward From an eagle in his flight. Come, read to me some poem, Some simple and heartfelt lay, That shall soothe the restless feeling, And banish the thoughts of day. Not from the grand old masters, Whose distant footsteps echo Through the corridors of Time, Read from some humbler poet, Whose song gushed from his heart, As showers from the clouds of summer.

Or tears from the eyelids start; Such songs have power to quiet The restless pulse of care, And come like the benediction That follows after prayer. And the night shall be filled with music, And the cares that infest the day Shall fold their tents, like the Arabs, And as silently steal away. — H. W. L.

Mr. and Mrs. M. Hannah and little daughter, Mary Margaret of Shreveport are guests of Mr. and Mrs. Frank Ward and Miss Lucy Hannah.

The Daily Vacation Bible school will open Monday morning at 9 o'clock at First Methodist church, with an efficient line of instructors. The public is cordially invited to attend these services.

Hydrangeas are descendants of roses. All our present-day flowers descended from buttercups, according to many plant authorities.

Federal Warrant Against Luke Lea

Ex-Senator Will Be Re-arrested Whenever He Leaves Prison

RALEIGH, N. C. (AP)—A federal warrant charging violation of the national banking laws in Tennessee has been sworn in North Carolina against Luke Lea and will confront him whenever he is released from Central prison here, where he is serving a sentence for conspiracy to violate banking laws of this state.

The warrant was issued here by United States Commissioner Charles D. Wildes, and a detainer for Lea, former Tennessee publisher and United States senator, has been filed.

The complaint was signed by Col. John Hall Manning, assistant United States district attorney, on the basis of a presentment returned by a federal grand jury at the May, 1931 term of federal court in the Eastern District of Tennessee, charging Lea with aiding in misapplication of funds from the Holston-Union bank of Knoxville, Tenn., a federal reserve institution.

An application for a full pardon for Lea on the grounds that he is innocent of charges on which he was convicted in connection with the crash of the Central Bank and Trust Company of Asheville in 1930 is in the hands of Governor Ehringhaus.

I used to be a Private Secretary

BEFORE I married I mean. Which was three years ago. But I still remember—and I'm never going to forget—how my boss ran his business.

I never saw such a successful man. When I first started to work for him, I thought he was just lucky. But a learned differently after I was with him for a while.

He never gave out a contract—never bought a thing, mind you—until he had studied all the bids made him, and compared all the points. I used to collect and file them for him, so he could get the facts when he needed them. So I know.

I know now, all right. That's the way I run my home. Only I don't have to collect and file my bids. I get them regularly in my newspaper. And do I study the advertisements carefully before I buy? You're telling me!

900 years. This is the time to put away NEXT: A beautiful voice. more humanity or a proposal with disappointment. To be continued.
